Summary

Aspiring Software Developer with strong knowledge of Python, Java, JavaScript, and SQL. Skilled in building applications, working with databases, and using Git and GitHub. Good problem-solving skills with a strong interest in software development and learning new technologies. Able to work well in a team and adapt quickly to new tools and technologies.

Education

- **Computer Engineering**, Galgotias University, Greater Noida — CGPA: 8.01
- **XII (UP)**, Sachidanand Inter College, Kaptanganj Kushinagar — 82% (2023)
- **X (UP)**, Sachidanand Inter College, Kaptanganj Kushinagar — 87.5% (2021)

Technical Skills

- **Programming Languages:** Python, AIML, SQL, Java, JavaScript
- **Databases:** MySQL, PostgreSQL, SQL Joins, Query Optimization
- **Web Technologies:** HTML, CSS, JavaScript
- **Developer Tools:** Git, GitHub, VS Code

Projects

- **RecoveryAI — Revenue Recovery Intelligence Platform** — Built a platform to analyze failed payment data and identify the main reasons for payment failures. Used Machine Learning to predict the recovery chances of failed payments and prioritize high-value cases. Ranked failed payments based on expected recovery value to support better recovery decisions. Achieved approximately 53*Technologies: Python, SQL, PostgreSQL, Machine Learning, Data Analysis, REST APIs*
- **RAG-based QA System** — Built a question-answering application using document search and AI to provide context-based answers. Implemented document retrieval and response generation using relevant information. Created a simple interface where users can ask questions and get clear answers from the uploaded documents.

Internships

- **Google AI-ML Virtual Internship — EduSkills**

  Completed a virtual internship covering AI/ML fundamentals, practical and problem-solving skills. Worked on practical tasks and learned how to apply AI/ML concepts to real-world problems.

- **Full Stack Development Internship — CodeSoft**

  Developed responsive web applications and gained hands-on experience in full-stack development. Worked with frontend and backend technologies to build and improve web applications.

Certifications

- **Python Certification — GUVI (in collaboration with HCL)** *Jan 2024*
- **Oracle Generative AI Professional Certification** *2025*
- **NPTEL Certification — Software Engineering** *Mar 2026*

Achievements

- Participated in **Smart India Hackathon 2025 (Phase-2)**, showcasing teamwork, problem-solving, and innovation.
